

GO-GO SAPIEN

CD & DVD LAUNCH MELB FRI 4TH NOV @ THE EVELYN

Melbourne based bombastic psych-rockers **Go-Go Sapien** celebrate the launch of their eleven track sophomore CD release and accompanying DVD film **This Body Is Wrong For Us** (out 4 November on Pop-boomerang), at their hometown CD Launch at The Evelyn Hotel, Nth Fitzroy on Friday 4th November. The high concept release includes an album length film, drawing influence from the canon of classic sci-fi, schlock-horror B-movies and surrealist art films. The 47 minute film features a stellar cast of musicians including Kim Salmon, Liz Stringer, Dave Graney and Linda Dacio (to name just a few).

Formed in 2006 as The Great Apes, their live performances are visually dynamic, energetic and theatrical - characteristically featuring outlandish matching uniforms and live film projections. **Go-Go Sapien** deliver an interplanetary sonic blast on **This Body Is Wrong For Us** and their synthesized futuristic guitar pop derives from a wide range of influences including post punk, psych-rock, surf music and sci-fi film scores.

Go-Go Sapien are a hard-working band having clocked up over one hundred live shows both in their hometown of Melbourne and interstate since their inception, and have shared stages with international and local rock 'n' roll luminaries such as The Sound-track Of Our Lives (Sweden), Kim Salmon & The Surrealists, Even and Dave Graney & The Lurid Mist.

This Body Is Wrong For Us CD & DVD film (out via Pop-boomerang) is available on 4 November at all good record shacks nationally. Catch them at their Melbourne CD Launch on Friday 4th November at The Evelyn Hotel, Nth Fitzroy. With support from post punk supergroup Harry Howard & The NDE, electro shoegaze ensemble The Queens Head and indie surf rockers Vicuna Coat, its gonna be a musically diverse, mindblowing extravaganza!

Like The Pineapples From The Dawn Of Time, Go-Go Sapien have discovered a recipe for exploiting the humour within the psychedelic experience. And they do it walking upright. You can't create this shitit must be the product of evolution' **Patrick Emery, Senior Writer, Beat Magazine, Melbourne.**
