

TRISTEN BIRD

HORSE TO WATER CD TOUR

Melbourne based singer-songwriter **Tristen Bird** deals in subtle, intimate, mood-driven storytelling. Proving that the apple doesn't fall far from the tree, his father was also country-folk musician, and Tristen turned to his craft early, developing a style that utilises textured finger style guitar and stringed sound scapes.

Armed with his debut album **Horse To Water**, Tristen is preparing to embark on criss-crossing the country to promote the CD during October and November. Recorded with ARIA award winning producer Shane O'Mara at the wheel in Melbourne's Yikesville studios. O'Mara has previously produced records for The Audreys, Lisa Miller, David Ross McDonald (The Waifs) and for Tim Rogers, all of whom are inspiration for Tristen.

The record also features a haunting duet with Triple J unearthed winner Abbie Cardwell and the Dobro talents of brother Jeb throughout.

Horse to Water is set for release in October and three radio singles will be released from the record, with music video clips to follow. The record will also be released with a social conscience and shall be combined with a number of unique conservation fund raising events for Birds Australia, an organisation close to Tristen. Birds Australia manage conservation projects for bird species that are on the brink of extinction. To support them Tristen will be promoting these efforts throughout the album release tour and donating to the "EagleCAM" project.
